

LIFE® StartSystem

AED Defibrillator and Emergency Oxygen in Portable Wall Case

The LIFE® StartSystem is a complete Emergency Oxygen Unit, conveniently paired with an AED for workplace first-aid programs and First Responders (AED sold separately). Containing a 15+ minute supply of 113 liters of safe, stable oxygen that does not expire and can be given in all temperatures, the oxygen cylinder additionally features a constant reading supply gauge to check oxygen levels, even when the unit is not turned on, and a durable, knurled knob valve for easier operation.

The StartSystem easily fits into a standard-sized AED wall cabinet, and spare oxygen cylinders are optional, or the empty cylinder can also be refilled.

LIFE-O2-LSS

Case, 6 and 12 LPM (Norm and High) regulator, cylinder/valve/gauge, O2 fill, tubing, mask

Fits Philips OnSite and FRx AEDs for workplace first-aid programs and first responders (purchase AEDs separately from Philips distributor)
